THE PRACTICAL NURSERYMAN

and Horticultural Advertiser.

Vol. 7.

CHICAGO, ILL., MARCH 15, 1899.

No. 3

TO NURSERYMEN, SEEDSMEN AND FLORISTS.

THE PRACTICAL NURSERYMAN

—AND—
HORTICULTURAL ADVERTISER.

W. F. HEIKES, Editor and Manager.
1308-1310 Unity Building, Chicago, Ill.

Issued monthly on the 15th. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of over 2,300 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be received one week before the day of publication. Orders for advertising amounting to less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

W. T. HOOD & CO.,
Old Dominion Nurseries,
350 ACRES,

BULLETIN NO. 2.

SURPLUS STOCK

—FROM—

The Huntsville Wholesale Nurseries

HUNTSVILLE, ALABAMA.

Shipments from St. Louis, Chicago, Omaha and Philadelphia

...AT...

ONE DAY'S NOTICE

WE have for the past nineteen years offered in assorted lots, at St. Louis, in spring, such stock as we had in surplus. Herein is a schedule of what we now have in St. Louis, Chicago and Omaha for immediate shipment. The stock is exclusively of our own growing at Huntsville, Alabama, fresh dug this spring, and packed in the best manner in moss, and warranted in fine condition. Everything is fine of the grade, with full fibrous roots, and not culled, as we adhere to a strict system of grading.

BELOW THE BLIZZARD LINE.

Our nurseries are far enough south to escape the severe freezing weather. Everything is bright, green and fresh—sound to the tips. Nearly all the sorts offered are standard sorts, such as most nurserymen can use in assortment with their own growing. Orders should be sent in as soon as possible, but the stock need not be shipped until wanted, as we are prepared to hold it in good condition. We have nothing for sale not offered on this list.

It will be noticed by some of our correspondents that we have refused orders the past season for several articles listed. Our fear of overselling and some countermands account for this. We ask attention to the small-sized trees offered for transplanting into nursery rows. All of the small trees, as well as the large ones, are very nicely rooted, and everything is young, smooth and bright.

We can refer to nurserymen who have bought of us in nearly every State and Territory. We can give satisfaction, and guarantee it for these shipments.

Terms.—Cash with order, or 30 to 60 days from date of shipment to responsible prompt-paying parties. In box lots the price of boxes is included, but the price of boxes on orders filled from the Nurseries is extra. The cost of drayage will be charged in both cases.

For convenience in telegraphing, a cipher is given. The cipher word stands for one box only in cases where there are more than one in the same assortment.

Address,

W. F. HEIKES, Manager,

1308-1310 UNITY BUILDING,

CHICAGO, ILLINOIS.

CHICAGO, ILL., March 15th, 1899.

For further conditions concerning risk of transportation, claims, etc., see Huntsville Wholesale Nurseries' pages in *THE PRACTICAL NURSERYMAN*.

CHICAGO, ILL.

All correspondence should be addressed to 1308-1310 Unity Building, Chicago, Ill. Our Huntsville office will remain at Huntsville as heretofore, but will be closed until the packing season opens, October 1st. In the meantime all correspondence should be addressed to our Chicago office. Mr. Heikes expects to be at Huntsville during the packing season, and will give the same careful attention to business there as in the past.

Chicago, St. Louis, Omaha and Philadelphia.

The following lists show what we offer from our several distributing points. We offer our surplus stock this year in Box Lots only, except for Roses. We will break boxes in Roses and supply the assortment desired, not less than 10 of a variety. All Roses are tied in bunches of 10, and we are not prepared to rehandle them in less numbers.

The prices quoted on Box Lots include the cost of boxes and the freight from Huntsville to our several distributing points--the drayage charges at these points are to be paid by the purchasers.

PERFECT DORMANT CONDITION.

Our stock is all in perfect dormant condition, and we are prepared to keep it so until the end of the season, as everything is now in cold storage.

In ordering one or more boxes of certain varieties, state what substitution will be allowed should we be sold out of lots or sorts desired. When the postoffice address and the railroad station differ, always give explicit directions for shipping with each order.

THE GREAT BLIZZARD.

Our nurseries at Huntsville escaped injury from the great blizzard, before which all merchantable stock had been dug and placed in cellars preparatory to packing and shipping. Everything we offer this spring is perfectly sound and free from injury from frost.

DORMANT

Field-Grown Roses,

OWN ROOTS.

Roses Are Now All in Chicago.

We will pack orders for Roses in such numbers as may be desired, not less than 10 of a variety of the same grade. These plants are now tied in bunches of ten, and we have no facilities for rehandling in smaller numbers.

These Roses are nearly all on their own roots, grown from cuttings by Heikes-Biloxi Nurseries Company, Biloxi, Miss. They are in fine dormant condition, and we are prepared to hold them in good order until May 10th, if desired.

The No. 1 plants made a growth of two to four feet, and have three or more branches, cut back to 24 to 30 inches. They are handsome in tops and roots, and cannot fail to give satisfaction.

Packing.—All will be packed in moss in the best manner. The price of boxes and bales is to be added to quotations. We deliver to transfer companies, and the cost of drayage will follow as advanced charges, or be added to the bill.

We make a grade of Roses called No. 1½. This grade will be made up of plants just under No. 1 such as do not have the required number of branches, or slightly under weight and height.

NO. 2 PLANTS OF ABOVE VARIETIES FOR TRANSPLANTING AT ONE-HALF THE PRICE OF NO. 1. The tops of No. 2 plants will be cut back to 2 or 3 inches, as they are only intended for transplanting. No. 2 grade all sold.

GRAFTS.—A few varieties marked g. are grafts. When marked c. g. they are both grafts and own roots.

MARECHAL NEIL.—Our No. 1 plants of Marechal Neil are very fine shaped plants, 3 to 4 feet high. They are made from grafts, which produce plants of much better style than those grown from buds.

DESCRIPTIONS.

SUDA CHERRY—This variety is like Wragg, but is claimed to be superior. It is a most remarkable bearer.

EARLY LAMAUURIE—This is the earliest of all sweet cherries. Color, black.

KERR PLUM—One of the finest Japan plums. Clear golden yellow; size, large. A good substitute if short of yellow plums.

EVERBEARING PEACH—We insert in this issue a colored plate of this remarkable variety, made by the J. Horace McFarland Co., Harrisburg, Pa., from whom duplicates can be obtained. We can testify to the correctness of this representation of the everbearing qualities of this variety, as we have seen the fruit when ripe and in all stages of growth upon the same branch. We have a good stock of these trees for sale for the fall of 1899.

INSPECTION.

Our nurseries at Huntsville and Biloxi are free from injurious insects, and we have inspector's certificates to that effect.

EAST SHORE NURSERIES,

BENTON HARBOR, MICH.

Address W. F. HEIKES, Manager, 1308 Unity Building, Chicago, Ill.

We have established a Branch Nursery at Benton Harbor, Mich., to be known under the above name.

We invite correspondence from those having specialties or a surplus, which they want to sell quickly at low prices.

TELEGRAPH CODE.

Use the Nurseryman's Telegraph Code in telegraphing. Anyone not in possession of a copy will be supplied upon application.

BULLETINS.

We will issue bulletins every five or six days showing what we have left for sale. If they are not received regularly, please inform us.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filed at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows:

Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent. per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: In a grade of 4 to 5 feet trees, the 4 foot trees are included, but not the 5 foot trees. If 5 foot trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.

(911)

ESTABLISHED 1829.

Blackberries A Specialty.

EARLY HARVEST, the earliest, eating qualities of the best.

AUSTIN'S IMPROVED or MYERS' HYBRID DEWBERRY. Early, large and of the best.

MAXWELL'S EARLY, earliest large Blackberry, requiring no stakes.

It is difficult to overestimate the value of a blackberry as large or larger than WILSON'S EARLY, and ripening as early as EARLY HARVEST. Very large, sweet, luscious, very productive. Ripens before strawberries are gone or at same time with Lucretia Dewberry and Early Harvest, and is three times as large as the latter. Free from rust, Double Blossom or other disease.

LUCRETIA DEWBERRY, claimed to be the best of the blackberry family, as productive as any. Its eminent success in all soils is something phenomenal. Its trailing habit makes it less liable to winter kill.

LOVETTS, best in small quantities.

TAMMANY, a new sort from Louisiana, said to be the largest and earliest of all.

LOGAN BERRIES, HYBRID, large and productive.

Texas Albinos, a white novelty, productive and good.

CHILDS' MAYBERRY.

Prices cheerfully given on application.

JEHU M. REED,

FREDERICA, DEL.
